

AP-2000

With 1 custom ISE Port & 1 custom Optical Port

The portable multiparameter probe that gives you a choice! Supplied with standard parameters, plus your choice of 1 ISE & 1 optical electrode!

Standard Parameters:

Optical DO, Specific EC, Absolute EC, pH, ORP, TDS, Resistivity, Salinity SSG and Temperature.

There are 3 simple choices to make to customise the probe. The probe comes with one ISE electrode socket and one optical electrode socket, plus you have the option to add a depth sensor.

3 Easy steps:

1. With or without Depth?
2. Which ISE electrode?
3. Which Optical electrode?

ISE Electrodes:

Ammonium & Ammonia, Chloride, Fluoride, Nitrate, Calcium.

Optical Electrodes:

Turbidity, Chlorophyll, Blue Green Algae, Rhodamine, Fluorescein, Refined Oil.
